## **X-FAB Q1 2017 Results**

### **Intermediate declaration by the Board of Directors**

Tessenderlo, Belgium – May 11<sup>th</sup>, 2017, 7.00 am CEST

In the first quarter 2017, X-FAB posted sales of USD 147.9 million and a net profit of USD 11.2 million or 9 cent per current outstanding share.

Compared to the first quarter of 2016, sales show an increase of 39%. When including the sales of the French operation in the first quarter 2016, the pro forma increase is 12%. Compared to the previous quarter, sales were 7% lower, predominantly due to lower subcontracted consumer revenue. Gross profit was USD 29.3 million, an increase of 52% compared to the same quarter last year and an increase of 5% compared to the previous quarter. The operating income was USD 11.6 million, an increase of 69% compared to the same quarter of last year and a decrease of 2% compared to the previous quarter. The operating margin was 7.8%, an improvement of 139 base points compared to the same quarter last year and 43 base points better than the previous quarter.

Net profit of the quarter was 239% higher compared to the same quarter last year and decreased by 15% compared to the previous quarter, mainly due to a one-off increase in deferred tax assets in the fourth quarter 2016 linked to the acquisition of the French operations as of October 1<sup>st</sup>, 2016. The subcontracted business represented USD 15.5 million in the first quarter 2017 with a corresponding operating profit of USD 1.7 million.

### **Outlook:**

For the second quarter, X-FAB expects to post USD 136-141 million in revenue with an EBITDA at about 19%. For the full year, the company foresees a further decrease in the subcontracted consumer business and better than expected sales in X-FAB's core markets automotive, industrial and medical. As a result, the company maintains its EBITDA goal for the full year and confirms the margin range of 19-20%.

Rudi De Winter, CEO of X-FAB, comments: "X-FAB started the year well with increased utilization in our factories compared to the same period previous year. I am very glad about the progress made with the integration of X-FAB France. As planned, we will start production in X-FAB France on X-FAB's proprietary technologies in the third quarter this year.

Prototyping revenue in the first quarter 2017 reached an all-time high of USD 13.2 million, 25% higher than the average last year. This shows the increased interest in our technologies. It also is a good early look indicator for future production revenue. Sales in our core markets automotive, industrial and medical totaled USD 77.2 million, an increase of 27% compared to the same quarter last year and 2% higher compared to the previous quarter. The share of automotive, industrial and medical markets increased from 47.6% in the previous quarter to 52.2% in the first quarter 2017. A higher exposure to our core end markets also improves visibility. Due to stock corrections by our customers, we expect the subcontracted business in the communication segment to drop in the second quarter of 2017.”

X-FAB’s first quarter results will be discussed in a live conference call on Thursday, May 11<sup>th</sup>, 2017 at 5.00 pm CEST. The conference call will be in English. Please register in advance of the conference using the following link: <http://emea.directeventreg.com/registration/21362180>
